New Hepatitis C Treatment - Week 5: Fifth Interferon Injection

January 14, 2013 By Devon Nicholson

Week 5 of Devon Nicholson's triple therapy Hepatitis C treatment video update has been released today.

In this video update (Shot on November 12th 2012) 2012 Canadian Greco Roman Wrestling Canadian Olympic Trials silver medalist Devon Nicholson begins his 5th with of Incivek "Triple Therapy" Hepatitis C treatment.

Devon is increasingly feeling the side effects of therapy as he takes his 5th of 24 weekly Interferon injections. Interferon is one of 3 powerful medications he is taking in his quest to cure Hepatitis C, a deadly blood to blood disease that affects an estimated 170 million people worldwide.
