Saving 41 People Living with Hepatitis C

May 10, 2013 By Lucinda K. Porter RN

41

An average of 41 people in the United States die every day from complications related to hepatitis C

41

people die from hepatitis C - every day

think about it

41

mothers, fathers, sons, daughters, brothers, sisters, grandmothers, grandfathers, aunts, uncles

and friends

die every day

41

think about it

but don’t think too long

instead, do something about it - today

41 people need help

*

Spread the word

*

May is national Hepatitis Awareness Month.
