Hepatitis Awareness Month is Officially Here

May 1, 2018 By Lucinda K. Porter RN

It is Hepatitis Awareness Month and for the next 31 days we pay extra attention to issues surrounding viral hepatitis. I am committing to do at least one daily action to raise awareness about virus hepatitis. I hope you will join me today and throughout this month, as we work to educate, challenge, and eventually eliminate viral hepatitis.

If you are wondering what you have to offer, I think of Margaret Mead's wisdom, words I never grow tired of, "Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has."

For ideas on what you can do, click on the Events page at Hep.

Tweet @hepatitismag with your event information and we will retweet it to our audience.
