Billy Jack Haynes on Defeating Hepatitis C

WWE Legend Billy Jack Haynes talks about contracting Hepatitis C from decades of having double blood matches.

December 2, 2019 By Devon Nicholson

WWE Legend Billy Jack Haynes talks about contracting Hepatitis C from decades of having double blood matches including many chain matches in WWE prior to the company having testing for the disease. Haynes underwent treatment for the disease and got cured earlier this year which is why he has lost significant weight due to some of the side effects of the treatment he took.
