

Don't Forget Hepatitis B

May 10, 2016 By [Lucinda K. Porter RN](#)

In observance of Hepatitis Awareness Month, I am posting to this blog daily, highlighting websites and organizations that are doing remarkable work educating the public, raising awareness, and making a difference in the lives of those affected by viral hepatitis. I suggest you visit each site, and find out what they are doing, how you can stay informed, and possibly help with their efforts.

Compared to hepatitis C, sometimes hepatitis B is overlooked. However, hepatitis B should not be relegated to the back seat, and the [Hepatitis B Foundation](#) works hard to advocate for those who are affected by HBV. The Hepatitis B Foundation's website is packed with information. There is more there than I can even begin to list. If you do visit their site, be sure to read the [Hep B Blog](#); it's outstanding.

Follow the Hepatitis B Foundation on Twitter [@HepBFoundation](#)
