Hepatitis Action: Treatment Action Group

May 27, 2016 By Lucinda K. Porter RN

In observance of Hepatitis Awareness Month, I am posting to this blog daily, highlighting websites and organizations that are doing remarkable work educating the public, raising awareness, and making a difference in the lives of those affected by viral hepatitis. I suggest you visit each site, and find out what they are doing, how you can stay informed, and possibly help with their efforts.

The Treatment Action Group (TAG) first focused on HIV, but branched out to include hepatitis C, TB, and vaccines. TAG has some of the best advocacy and scientific writing on the Web. When I was exploring hepatitis C treatment options, I began with TAG's pipeline report. TAG has been a powerful voice in fighting for access to treatment, and I am grateful for their work.
