

Hepatitis Action: Treatment Action Group

May 27, 2016 By [Lucinda K. Porter RN](#)

In observance of Hepatitis Awareness Month, I am posting to this blog daily, highlighting websites and organizations that are doing remarkable work educating the public, raising awareness, and making a difference in the lives of those affected by viral hepatitis. I suggest you visit each site, and find out what they are doing, how you can stay informed, and possibly help with their efforts.

The [Treatment Action Group](#) (TAG) first focused on HIV, but branched out to include hepatitis C, TB, and vaccines. TAG has some of the best advocacy and scientific writing on the Web. When I was exploring hepatitis C treatment options, I began with [TAG's pipeline report](#). TAG has been a powerful voice in fighting for access to treatment, and I am grateful for their work.
