Be a Loud Hepatitis Awareness Advocate

May 8, 2015 By Lucinda K. Porter RN

In observance of Hepatitis Awareness Month, in May I am posting to this blog daily, suggesting ways to help raise awareness about issues surrounding hepatitis C.

Few things are as loud as a thunderclap, even a virtual one. Thunderclap is a tool that allows supporters to sign up in advance and share a unified message simultaneously across social media platforms to create a wave or "thunderclap." To use Thunderclap, you must have a Facebook, Twitter, or Tumblr account.

To further raise awareness and promote testing during May, participate in the **Be #HepAware** Thunderclap on May 19th. Visit #HepAware Thunderclap to sign up, You can do this in advance, and Thunderclap will post your message. on May 19, which is Hepatitis Testing Day.
