

Hepatitis Awareness Month is Officially Here

May 1, 2018 By [Lucinda K. Porter RN](#)

It is Hepatitis Awareness Month and for the next 31 days we pay extra attention to issues surrounding viral hepatitis. I am committing to do at least one daily action to raise awareness about virus hepatitis. I hope you will join me today and throughout this month, as we work to educate, challenge, and eventually eliminate viral hepatitis.

If you are wondering what you have to offer, I think of Margaret Mead's wisdom, words I never grow tired of, "Never doubt that a small group of thoughtful, committed citizens can change the world. Indeed, it is the only thing that ever has."

For ideas on what you can do, click on the [Events page at Hep](#).

Tweet [@hepatitismag](#) with your event information and we will retweet it to our audience.
