Send a Hepatitis E-Card

May 7, 2015 By Lucinda K. Porter RN

In observance of Hepatitis Awareness Month, in May I am posting to this blog daily, suggesting ways to help raise awareness about issues surrounding hepatitis C.

The Centers for Disease Control and Prevention (CDC) offers a hepatitis-related e-card that you can personalize and send to people you know. The e-card provides a Hepatitis Risk Assessment. You can even download an app so you can send e-cards to family and friends from your iPhone.

Nothing says “I care” like a greeting card, and this one could even save a life.
