

Top App for Liver Health is LiverWELL

September 7, 2018 By [Karen Hoyt](#)

Karen Hoyt is a blogger who has a story about hepatitis C, cirrhosis, end-stage liver disease, liver cancer, and liver transplantation. This excerpt first appeared on Karen's [I Help C blog](#).

I recently got the chance to test - and can finally announce that my new top app for liver health is LiverWELL.

From our friends at Hepatitis Victoria, this is the newest technology in the liver disease, and Hepatitis community. I've been testing LiverWELL for a couple of weeks. It was a simple set up and so fun to use. Our friends in the Land Down Under have worked hard to design and make this available for FREE to all users.

First off, I love using health apps on my phone. After the diagnosis with Hepatitis C, I began to explore apps to help me sleep, remember my medications, check my heart rate, exercise, track my doctor visits and So So much more. It's an addiction. Nothing that was available has even come close to this app for tracking liver health. Let's get going!

Questions

Where can I get it?

In the itunes store, Apple, and Google App Store

Which devices can I use?

Any apple or android is compatible.

Who sees my personal information?

No one. It's got Captcha protection so that no one can hack into your liver wellness information.
