

Webinar on Understanding Federal Appropriations

March 23, 2018 By [NVHR](#)

Please join [Hep B United](#), the [Hepatitis Appropriations Partnership](#), and the [National Viral Hepatitis Roundtable](#) on March 29, 2018 from 3:00 PM to 4:00 PM ET for a webinar on Understanding Federal Appropriations.

In FY2017, the CDC's viral hepatitis programs received only \$34 million. Funding levels have long been insufficient to combat the growing number of viral hepatitis cases in the country. It is imperative that we act on the urgent need for additional federal funding and respond to the recent explosion of opioid use in the United States that has fueled increases in new hepatitis B, hepatitis C, and HIV infections.

Panelists will provide an introduction to the federal budget and appropriations process, an overview of appropriations advocacy strategies, and updates on coalition-based efforts to advocate for increased funding and support for viral hepatitis programs in the United States.

Moderator:

Rhea Racho, Public Policy and Program Manager, Hepatitis B Foundation

Speakers:

Emily McCloskey, Associate Director, Policy & Legislative Affairs, the National Alliance for State and Territorial AIDS Directors (NASTAD)

Frank Hood, Hepatitis C Policy Associate, The AIDS Institute

*Be sure to [register now](#) and join early, space is limited. A confirmation email with information on how to join the webinar will be sent to you after you register.
